

CORFU S2 ESD Safety Shoe

SKU: GS-CORFU

Features & Benefits

- ◆ **Lightweight, Unisex ESD Shoe**
- ◆ **MICRO-tech Technical Fabric** – 1.8-2.0 mm thickness, breathable, abrasion-resistant material for enhanced comfort and durability.
- ◆ **Completely Metal-Free Design** – Ideal for environments that require non-metallic footwear for electrical safety.
- ◆ **ANTI-TORSION Insert** – Provides stability and reduces foot fatigue on uneven surfaces.
- ◆ The Corfu ESD Shoe features MICRO-tech technical fabric with a thickness of 1.8-2.0 mm, providing durability and breathability
- ◆ With the INSOLE 5000, this shoe delivers enhanced comfort, with perspiring, removable, and anatomic features to keep your feet comfortable and dry throughout the day

About the CORFU S2 ESD Safety Shoe

Corfu ESD Safety Shoe – High-Quality Italian-Made Footwear

The Corfu ESD Safety Shoe combines Italian craftsmanship, advanced technology, and superior comfort to provide an excellent solution for workers in ESD-sensitive environments. Offering great value for money, this lightweight and durable low-profile shoe is designed to meet the highest safety standards while providing all-day comfort. Certified to CE UNI EN ISO 20345:2012 S2 SRC ESD, the Corfu is the perfect choice for workers requiring both static protection and high-performance footwear.

The Corfu ESD Shoe features MICRO-tech technical fabric with a thickness of 1.8-2.0 mm, providing durability and breathability. The shoe is completely metal-free, making it ideal for environments where non-conductive footwear is required. The 200J polymeric composite toecap ensures impact protection, while the flexible anti-perforation midsole provides additional safety against sharp objects. The 3HYBRID polyurethane sole offers excellent shock absorption, anti-slip, and abrasion resistance, while the ANTI-TORSION insert provides stability on uneven ground.

With the INSOLE 5000, this shoe delivers enhanced comfort, with perspiring, removable, and anatomic features to keep your feet comfortable and dry throughout the day. The Corfu ESD Shoe is engineered to meet ESD Class 3 standards, making it a reliable choice for any electrostatic-sensitive environment.
