

Cartridge filter

SKU: 601-250-1

Features & Benefits

- ◆ Designed for DPF-300 PCB depaneling system
- ◆ Compatible with dust cases of size 1" 1/4
- ◆ Genuine manufacturer part for reliable performance
- ◆ Ensures effective dust and debris filtration during operation
- ◆ High-quality construction for long-lasting use

About the Cartridge filter

The Cartridge Filter is a high-quality spare part designed specifically for the DPF-300 PCB depaneling system.

It is compatible with dust cases of 1" 1/4 size, ensuring efficient filtration and maintaining the cleanliness of the workspace during the depaneling process.

This genuine manufacturer part guarantees durability and optimal performance, providing the necessary filtration for dust and debris removal.

Keep your system running smoothly by replacing worn-out filters with this authentic cartridge filter.
