- ◆ **Non-conductive properties** make them ideal for electronics and lab use
- ◆ **Sold in packs of 4** for added convenience
- ◆ **Finger-friendly** design for safer use
- ◆ **Ceramic blade** for sharpness and longevity
- ◆ **100% zirconium oxide blade** that never rusts
- ◆ **Blade lasts 11.2x longer** than metal blades

About the Chisel Blades #10534

The Chisel Blades #10534 are ideal for detailed, precise work, such as removing small labels or scraping smaller surfaces. Their non-conductive properties make them a great choice for lab workers and electronics manufacturers, ensuring safety when working with sensitive components. Made from 100% zirconium oxide, these ceramic blades are rust-resistant and last up to 11.2 times longer than traditional metal blades.

Sold in **packs of four**, these blades offer a safer, more durable alternative to conventional options.

Compatible Knives:

- Craft Knife #10548
- Craft Knife (safety cap) #10589
- Scalpel (replaceable blade) #10568
