

Cross Weaved Tape W 48mm x L 50 Metres

SKU: P-CWT-1

Features & Benefits

- ◆ Cross-woven glass fibres for enhanced strength and durability
- ◆ Can replace metal or polypropylene strapping for heavy-duty tasks
- ◆ **Total thickness:** 145µm +/-10%
- ◆ Strong adhesive (1000g/cm +/-10%) for secure bonding
- ◆ Stretch % at breaking point: 9% +/-20%
- ◆ Heat-resistant up to 110°C
- ◆ Transparent base colour for versatile use
- ◆ **Adhesive:** Thermoplastic rubber, hydrocarbonic and natural resins
- ◆ 50-metre roll, 48mm wide, ideal for bulk packaging tasks
- ◆ The tape features a strong adhesive and is heat-resistant up to 110°C, ensuring reliable performance even in challenging conditions

About the Cross Weaved Tape W 48mm x L 50 Metres

Cross Weaved Tape W 48mm x L 50 Metres is specially engineered for applications requiring high breaking strength, making it an excellent solution for heavy-duty packaging tasks.

Reinforced with cross-woven glass fibres, this tape offers superior durability and can replace metal or polypropylene strapping for tasks like packaging books, export packing, and bundling metal strips.

The tape features a strong adhesive and is heat-resistant up to 110°C, ensuring reliable performance even in challenging conditions. With a total thickness of 145µm and a breaking strength of 28.0kg/cm, it provides secure and efficient bundling and packaging.

Can replace metal or polypropylene strapping. Typical uses are packaging books/export packing/bundling strips of metal

Specifications

Property	Detail
Breaking strength	28.0kg
Application	ESD-protected areas, electronics mfg, cleanrooms
