

D06 - Hot Air Nozzle

SKU: GW-D06

Features & Benefits

- ◆ Two-sided heated nozzle with integrated pre-heating plate
- ◆ Compatible with HAP 1, HAP 200, and WXHAP 200 hot air tools
- ◆ Designed for precise and efficient rework
- ◆ Supplied individually (1 per package)
- ◆ Ideal for components requiring focused, dual-sided heat
- ◆ Part of Weller's professional-grade hot air nozzle range

About the D06 - Hot Air Nozzle

The Weller D06 Hot Air Nozzle is engineered for precise and efficient heat application, featuring two-sided heating with an integrated pre-heating plate.

With a length of 13.0 mm and a width of 10.0 mm, it is ideal for rework tasks that require concentrated heat across two sides of a component.

Designed for use with the HAP 1, HAP 200, and WXHAP 200 hot air tools, the D06 ensures reliable thermal performance and accuracy. Supplied as a **single unit per package**, it is part of Weller's trusted professional nozzle family, offering consistent results in demanding electronic applications.

Specifications

Property	Detail
Dimensions	Length 13.0 mm, Width 10.0 mm
Application	ESD-protected areas, electronics mfg, cleanrooms
