- ◆ High-quality, purified water for optimal results

About the De-Ionised Water 20 Litres

Our 20-litre De-Ionised Water is supplied in non-tainting, recyclable plastic containers, ensuring purity for a variety of applications.

Once the water is used, the containers can be easily recycled, offering an eco-friendly solution.

For smaller quantities, we also offer 1-litre bottles, available upon request by calling our sales team at 01202 588900.

Ideal for use in laboratories, electronics, and other sensitive industries, our De-Ionised Water ensures high-quality results and responsible disposal.
