

Disposable Wrist-Strap ESD

SKU: 101-110

Features & Benefits

- ◆ Disposable wrist-strap for static-sensitive environments
- ◆ ESD safe for reliable static control
- ◆ Includes self-adhesive grounding pad for easy grounding
- ◆ **1.2 metre length** for flexibility and comfort
- ◆ Ideal for single-use applications in electronics manufacturing and repair work

About the Disposable Wrist-Strap ESD

The disposable wrist-strap is an ESD safe solution designed for short-term use in static-sensitive environments.

It comes complete with a self-adhesive grounding pad, making it easy to establish a reliable grounding connection.

With a 1.2 metre length, this wrist strap provides ample flexibility and ensures comfort during use.

Ideal for environments where static protection is essential, this affordable and convenient option is perfect for quick, single-use applications, such as in electronics manufacturing or repair work.
