About the Dover Fleece Lined Bomber Jacket - ROYAL/DARK NAVY BLUE

A dependable outer layer for wet, windy working days. The Dover bomber jacket combines a waterproof, windproof Hydrafort polyester outer with a warm 220 series anti-pill Symmetry fleece-lined body, keeping the wearer protected and comfortable through changing conditions.

Thermo-Guard insulation in the sleeves adds extra warmth without restricting movement, while taped seams, an adjustable concealed hood and stormflap help shut out the weather. Practical finishing touches include adjustable cuffs, two lower zipped pockets and an inner security pocket.

Ready for workwear personalisation

A concealed zip entrance in the lining provides easy embroidery access, making this jacket a practical choice for branded uniforms, teams and trades.
