

DustPRO 400 - 115-230V

SKU: 503-348

Features & Benefits

- ◆ **Wide Application Use:** Suitable for CNC, drilling, grinding, engraving, routing, and weld cleaning
- ◆ **High Performance:** Airflow of 400 m³/hr and pressure of 96 mbar
- ◆ **Compact & Lightweight:** Dimensions – 600 x 285 x 275 mm; Weight – 14 kg
- ◆ **Efficient Filtration:** HEPA filter (99.995% @ 0.3 microns) + bag pre-filter
- ◆ **Brushless High-Vacuum Blower:** Ensures durability and consistent suction
- ◆ **Variable Airflow Speed:** Adjustable to match specific application needs
- ◆ **Multi-Voltage Sensing:** Automatically adjusts to local voltage
- ◆ **Optional Features:** Remote stop/start and filter change signal
- ◆ **Quiet Operation:** Noise level below 66 dBA
- ◆ **Durable Build:** Powder-coated mild steel construction
- ◆ **Low Running Costs:** Energy-efficient with optional auto-stop features
- ◆ Featuring a HEPA filter that removes 99.995% of particles at 0.3 microns, along with a bag pre-filter, it ensures effective filtration

About the DustPRO 400 - 115-230V

The DustPRO 400 is a compact, high-performance dust extraction system for industrial use, including CNC machining, drilling, grinding, and weld cleaning.

It offers increased airflow over the DustPRO 250, with a brushless high-vacuum blower and adjustable airflow speed. Featuring a HEPA filter that removes 99.995% of particles at 0.3 microns, along with a bag pre-filter, it ensures effective filtration. With multi-voltage sensing, low noise, and optional remote start and filter alerts, it's efficient, durable, and easy to operate.

Compatible with:

- Bag Filter - DustPRO 250/400
- HEPA Filter - DustPRO 250/400
