

DustPRO 50 (50mm Inlet)

SKU: 503-343-1

Features & Benefits

- ◆ **Industrial-Grade Extraction:** Ideal for collecting swarf, dust, and small particulates generated during mechanical processes.
- ◆ **Brushless Pump:** Designed for continuous operation, providing reliable and long-lasting performance with minimal maintenance.
- ◆ **Low Noise Level:** Operates quietly, ensuring a comfortable workspace.
- ◆ **Durable Construction:** Powder-coated mild steel for enhanced durability in industrial environments.

About the DustPRO 50 (50mm Inlet)

The BOFA Dust PRO 50 is an industrial-grade dust and particle extractor, specially designed for operations like routing, mechanical engraving, grinding, and turning.

It efficiently filters small particulates and swarf to maintain a clean and safe working environment.

Compatible with:

- Bag Filter A1030135

Specifications

Property	Detail
Voltage	230V, suitable for standard voltage systems.
50mm Inlet	
Airflow/Pressure	80m ³ /hr airflow with 100mbar pressure for effective extraction.
Electrical Data	230V Single-phase 1~ 50/60Hz, Full load current: 2.8 amps / 0.4kw.
Noise Level	< 64dBA, designed for quieter operation during extended use.
Dimensions (HxWxD)	66 x 41 x 40cm, compact for easy installation in various setups.
Weight	20kg, lightweight and portable for flexibility in different work environments.
Application	ESD-protected areas, electronics mfg, cleanrooms
