

ESD - Smooth Chain Nose Pliers 115mm

SKU: G-HT-P8

Features & Benefits

- ◆ ESD-safe to protect against static discharge
- ◆ Smooth chain nose design for precise manipulation
- ◆ 115mm tool length for compact versatility
- ◆ Bi-component supersoft handle grips for added comfort
- ◆ Durable C70 hardened steel construction
- ◆ Laser-cut design for enhanced precision
- ◆ Integrated springs for effortless operation
- ◆ Crafted from durable C70 hardened steel and featuring a laser-cut design, they ensure long-lasting performance

About the ESD - Smooth Chain Nose Pliers 115mm

The ESD Smooth Chain Nose Pliers are ideal for precision work in tight spaces, offering smooth jaws for secure gripping and fine manipulation.

With a 115mm tool length, these pliers provide excellent control for tasks such as bending and shaping wires or components. Crafted from durable C70 hardened steel and featuring a laser-cut design, they ensure long-lasting performance. The ESD-safe construction protects sensitive electronics from static discharge, while the bi-component supersoft handle grips provide comfort and a secure hold.

Integrated springs make these pliers easy to use for extended periods.
