

ESD - Snipe Nose Pliers

SKU: G-HT-P1

Features & Benefits

- ◆ **Type:** Snipe nose pliers with smooth pointed tips
- ◆ **ESD Safe:** Protects against static discharge
- ◆ **Handle:** Bi-component, supersoft grips for comfort and control
- ◆ **Design:** Laser cut for high accuracy and performance
- ◆ Ideal for use in electronics and other ESD-sensitive environments, these pliers feature a high-quality laser-cut design for accuracy

About the ESD - Snipe Nose Pliers

These ESD Snipe Nose Pliers are designed for precision tasks, offering a smooth and pointed tip for intricate work. Ideal for use in electronics and other ESD-sensitive environments, these pliers feature a high-quality laser-cut design for accuracy. The pliers are made from C70 hardened steel for durability, ensuring long-lasting performance. The bi-component handles with supersoft grips provide comfort and control, even during extended use, while the ESD-safe construction prevents static damage to sensitive components.

Specifications

Property	Detail
Material	C70 hardened steel for strength and durability
Length	115mm for precision in tight spaces
Application	ESD-protected areas, electronics mfg, cleanrooms
