

ESD 170M Shear Cutter

SKU: 205-100

Features & Benefits

- ◆ **Type:** Shear cutter with soft grips and low profile
- ◆ **ESD Safe:** Protects sensitive components from electrostatic discharge
- ◆ **Shear Cutting Action:** Superior blade bypass shear action for smooth cuts
- ◆ **Reduced Mechanical Shock:** Minimises mechanical shock to the workpiece
- ◆ **Compliance:** Meets MIL-STD-2000, DOD-STD-2000, and WS-6356E standards
- ◆ **Grip:** Soft, ergonomic handles for comfort and control during use
- ◆ Featuring a low profile and soft grips, it ensures both comfort and control during prolonged use

About the ESD 170M Shear Cutter

The ESD 170M Shear Cutter is a versatile, general-purpose tool designed for precision cutting in electronics and other fine applications.

Featuring a low profile and soft grips, it ensures both comfort and control during prolonged use.

The shear cutting action greatly reduces mechanical shock delivered to the work, making it ideal for delicate components. With its flush-cutting capability, this cutter can handle soft wire up to 20 AWG (0.8 mm).

Designed to comply with MIL-STD-2000, DOD-STD-2000, and WS-6356E standards, it is ESD safe, ensuring protection against electrostatic discharge.

Specifications

Property	Detail
Cutting Capacity	Flush cuts soft wire up to 20 AWG (0.8 mm)
Application	ESD-protected areas, electronics mfg, cleanrooms
