

ESD 4 Tier Adjustable Trolley

SKU: 601-026

Features & Benefits

- ◆ **Static-Safe Transport:** Designed for moving ESD-sensitive components securely
- ◆ **Strong Frame:** Made from durable galvanised steel
- ◆ **Spacious Design:** Trolley dimensions: 1300 x 620 x 486mm
- ◆ **Adjustable Storage:** 4 tiers including 3 height-adjustable shelves
- ◆ **Shelf Sizes:** Top three shelves: 620 x 420mm, Bottom shelf: 620 x 485mm
- ◆ **Flexible Shelf Tilt:** Shelves tilt up to 25mm for convenience
- ◆ **Smooth Mobility:** 4 conductive swivel castors (2 with brakes), 100mm diameter
- ◆ **Versatile Compatibility:** Fits euro containers, picking bins, trays, and reel storage racks
- ◆ **ESD Performance:** Resistance to ground-able point: 10^3 to $10^5 \Omega$
- ◆ **Easy Assembly:** Includes clear assembly instructions

About the ESD 4 Tier Adjustable Trolley

The ESD Trolley is an ideal solution for transporting static-sensitive components safely across the production line.

Designed to accommodate euro containers, picking bins, and reel storage racks, this 4-tier trolley offers flexible and efficient storage for screws, parts, and components. Constructed from galvanised steel, it features three height-adjustable shelves and smooth manoeuvrability with four conductive swivel castors, two of which include brakes.

Fully compliant with IEC-61340-5-1, RoHS, and REACH standards, this trolley ensures reliable ESD protection in any electronics manufacturing environment.
