

ESD F.L. Adjustable Workstations 2000mm

SKU: GB-E-FL20 | Sizes: 450mm, 600mm, 750mm, 900mm

Features & Benefits

- ◆ Height adjustable Four-Leg Design with increased flexibility and higher carrying capacities
- ◆ Modular construction for compatibility with a wide range of upper and lower workstation accessories
- ◆ Full ESD protection with unique multi-connector for 10mm snap and 4mm banana connections for wrist straps and cords
- ◆ Grounding points insulated through the front rail for safe electrostatic discharge management
- ◆ 40mm location holes to accept rear support posts for upper-bench accessories
- ◆ 20mm worktops with an MDF core, available in Microstat® or Florite laminate for ESD protection (105 - 109 ohms resistance)
- ◆ Adjustable feet for easy levelling and stability
- ◆ Length: 1000mm, 1200mm, 1500mm, 1800mm, 2000mm
- ◆ Depth: 450mm, 600mm, 750mm, 900mm

About the ESD F.L. Adjustable Workstations 2000mm

The Height Adjustable Four-Leg Design workbench offers exceptional flexibility and stability, making it ideal for environments that require higher carrying capacities and secure positioning.

Its modular construction combines aesthetic appeal with the versatility to accommodate a full range of upper and lower work station accessories. All accessories are available in the standard 00A05 grey colour, ensuring compatibility with both standard and ESD drawers and cupboards across the entire range.

This bench provides full ESD protection, featuring a unique multi-connector that supports both 10mm snap and 4mm banana connections for wrist straps and cords. The grounding points are insulated through the front rail, ensuring proper electrostatic discharge management. Designed with 40mm location holes, it can easily accommodate rear support posts for various accessories.

20mm worktops are balanced with an MDF core, and are available in Microstat® or Florite laminate, providing superior ESD protection with resistance values ranging from 105 - 109 ohms.

Available in multiple sizes and heights (**760mm, 840mm, 880mm, and 920mm**), this workstation offers customisable configurations to suit a wide range of work environments. Adjustable feet ensure the workstation remains level for optimal stability, and the powder coat finish in 00A05 grey guarantees durability and a professional look.
