C	Shoulder	±1	43	44	45	46	47	48	49	50	51
D	Sleeve	±1	62	63	64	65	66	67	68	69	70

** When ordering please replace the colour and size with your options. For example 702-003-DG-L

* 1/2 CHEST (or half-chest) is used instead of a full circumference measurement to ensure accuracy, as it avoids errors caused by fabric stretching or inaccurate wrapping around the body. This method helps to determine the actual size of the garment.

ESD garment measurements

A. 1/2 CHEST

* Measurement of the garment laid flat, taken from one armpit to the other

B. BACK LENGTH

Measurement from the top collar joint to the bottom of the hem

C. SHOULDER

Measurement across the shoulders

D. SLEEVE

Measurement from the top of the arm
