

ESD Fully Ergonomic Deluxe Chair (High)

SKU: 111-117-H | Sizes: Black Vinyl, Charcoal Fabric, Blue Fabric

Features & Benefits

- ◆ **Height adjustment (High Model):** 500-690mm for ergonomic flexibility at tall workstations
- ◆ Gaslift swivel height adjustment for easy and smooth height adjustments
- ◆ Designed to dissipate static electricity directly to earth, providing ESD protection
- ◆ Compliant with European Standard EN 61340-5-1:2001, ensuring suitability for static controlled environments
- ◆ **Available in 3 colours:** Charcoal fabric, Blue fabric, and Black vinyl for style and durability
- ◆ Ideal for use in electronics, electrical industries, and other ESD-sensitive areas

About the ESD Fully Ergonomic Deluxe Chair (High)

Affordable ESD seating and static control for use in the electronics & electrical industries. Meticulously designed for use in the electronics and electrical industries, where protection against electrostatic discharge (ESD) is essential whilst ensuring maximum comfort.

This chair is designed to prevent the build-up of static electricity by safely dissipating it directly to earth, making it an essential tool for static controlled environments where sensitive equipment must be protected from electrostatic discharge (ESD).

With gaslift swivel height adjustment, the chair offers a height range of 500-690mm, allowing users to easily adjust the seat to their preferred working position. The high model is perfect for tasks that require a higher seating position, such as working at tall workstations, laboratory benches, or industrial equipment.

Compliant with European Standard EN 61340-5-1:2001, the chair ensures it meets rigorous ESD safety regulations, making it suitable for environments where static control is paramount. Whether in an assembly line, electronics testing area, or laboratory, this chair combines durability, ergonomic design, and superior ESD protection.

Available in three colour options – Charcoal fabric, Blue fabric, and Black vinyl – the chair provides a blend of comfort, style, and functionality for diverse industrial settings.
