

ESD Intermediate Chair (High)

SKU: 111-115-H | Sizes: Black Vinyl, Charcoal Fabric, Blue Fabric

Features & Benefits

- ◆ **Height adjustment (High Model):** 500-690mm for flexible use at tall workstations or laboratory benches
- ◆ Gaslift swivel height adjustment for smooth and easy height customisation
- ◆ Designed to dissipate static electricity safely to earth, ensuring ESD protection
- ◆ Compliant with European Standard EN 61340-5-1:2001, making it suitable for static controlled environments
- ◆ **Available in 3 colours:** Charcoal fabric, Blue fabric, and Black vinyl for a durable, professional look
- ◆ Ideal for use in electronics, electrical industries, and other ESD-sensitive areas

About the ESD Intermediate Chair (High)

Affordable ESD seating and static control for use in the electronics & electrical industries. Specifically designed for use in the electronics and electrical industries, where protection against electrostatic discharge (ESD) is essential.

This chair effectively prevents the build-up of static electricity by dissipating it directly to earth, making it perfect for use in static controlled environments where sensitive equipment requires protection.

Fitted with gaslift swivel height adjustment, the chair offers a height range of 500-690mm, providing ergonomic flexibility for users working at taller workstations or equipment. The Intermediate model offers a balance of comfort, durability, and ESD protection, ensuring that workers can maintain good posture and productivity in environments requiring strict static control.

Compliant with European Standard EN 61340-5-1:2001, this chair adheres to ESD safety regulations, making it suitable for environments where static discharge can cause significant damage to electronic components. Whether used in manufacturing, assembly lines, or laboratories, the ESD Intermediate Chair (High) provides the comfort and safety required for prolonged use.

Available in three colours – Charcoal fabric, Blue fabric, and Black vinyl – this chair combines both functionality and style, making it a versatile choice for various industrial settings.
