

ESD Intermediate Chair (Standard)

SKU: 111-115 | Sizes: Glides / Black Vinyl, Glides / Charcoal Fabric, Glides / Blue Fabric, Castors / Black Vinyl, Castors / Charcoal Fabric, Castors / Blue Fabric

Features & Benefits

- ◆ **Height adjustment (Standard Model):** 450-590mm for ergonomic flexibility and comfort
- ◆ Gaslift swivel height adjustment for smooth and easy height customisation
- ◆ Effectively dissipates static electricity safely to earth, ensuring ESD protection
- ◆ Compliant with European Standard EN 61340-5-1:2001, suitable for static controlled environments
- ◆ **Available in 3 colours:** Charcoal fabric, Blue fabric, and Black vinyl for both durability and style
- ◆ Ideal for use in electronics, electrical industries, and other ESD-sensitive environments

About the ESD Intermediate Chair (Standard)

Affordable ESD seating and static control for use in the electronics & electrical industries. Expertly designed for use in the electronics and electrical industries, where protection against electrostatic discharge (ESD) is essential.

This chair effectively prevents the build-up of static electricity by dissipating it directly to earth, ensuring safe working conditions in static controlled environments where sensitive equipment must be safeguarded from ESD.

Equipped with a gaslift swivel height adjustment, the chair offers a height range of 450-590mm, allowing users to easily adjust the seating position for maximum comfort and ergonomic support. This Standard model is perfect for a variety of tasks, offering both comfort and ESD protection for extended periods of use.

Compliant with European Standard EN 61340-5-1:2001, the chair adheres to the strictest ESD safety regulations, making it suitable for environments that require precise static control. Whether you're working in manufacturing, electronics testing, or laboratory settings, this chair provides a reliable and ergonomic solution.

Available in three colours – Charcoal fabric, Blue fabric, and Black vinyl – the chair offers a professional look while ensuring long-lasting durability in a range of industrial environments.
