

ESD LocLINE anti-static 2.5" slide valve

SKU: 503-437

Features & Benefits

- ◆ Designed for the 'V' range of BOFA extraction products
- ◆ 2.5" diameter slide valve for controlling or stopping airflow
- ◆ Anti-static design ensures safe operation in ESD-sensitive environments
- ◆ Ideal for use with LocLINE extraction hoses
- ◆ Provides enhanced flexibility and control over fume extraction

About the ESD LocLINE anti-static 2.5" slide valve

The BOFA LocLINE Anti-Static 2.5" Slide Valve is designed to work seamlessly with the 'V' range of BOFA extraction products. This valve allows users to easily control or stop the airflow through their LocLINE extraction hose, offering enhanced flexibility in managing fume extraction.

With its anti-static design, it ensures safe operation in sensitive environments, providing reliable airflow control.
