

ESD OPEN Front Stackable Picking bins

SKU: 101-50 | Sizes: 95 x 105 x 55, 170 x 100 x 75, 230 x 150 x 125, 350 x 210 x 145, 350 x 210 x 200, 500 x 310 x 200

Features & Benefits

- ◆ New generation of ESD storage boxes with **open fronts** for maximum flexibility and functionality
- ◆ **ESD-safe protection** for static-sensitive devices
- ◆ **Extremely robust design** for long-lasting use
- ◆ **Lightweight** for easy handling and portability
- ◆ **Plenty of space** for storing contents efficiently
- ◆ **Stackable containers** to optimise storage space
- ◆ **Great range of sizes** available to suit most items
- ◆ **External measurements** provided for accurate planning
- ◆ Suitable for use with louvered panels or for stacking
- ◆ Ideal for use in workshops, assembly lines, and industrial environments

About the ESD OPEN Front Stackable Picking bins

The new generation of ESD storage boxes with open fronts offers maximum flexibility and functionality, making them an ideal solution for storing static-sensitive devices in ESD-protected environments.

Designed to facilitate your work operations, these boxes provide reliable electrostatic discharge (ESD) protection while being extremely robust and lightweight, ensuring durability and easy handling. With plenty of space for your contents, these stackable containers allow for efficient storage and organisation, maximising workspace.

The boxes come in a wide range of sizes, suitable for most items, and the **measurements shown are external** to help with accurate planning.

These boxes can be used with louvered panels for hanging storage or stacked for convenient, space-saving organisation.

Whether you're working in workshops, assembly lines, or industrial environments, these ESD storage boxes help optimise your storage while maintaining the highest standards of ESD safety.
