

# ESD Rubber Tube

SKU: 601-108-2

## Features & Benefits

- ◆ 8mm diameter x 20cm long tube
- ◆ ESD protection to prevent static damage during depaneling
- ◆ Fits DPF200/300 depaneling systems
- ◆ Genuine manufacturer part for optimal compatibility and performance

## About the ESD Rubber Tube

The ESD Rubber Tube is a genuine manufacturer part designed to fit the DPF200 and DPF300 PCB depaneling systems. This 8mm diameter, 20cm long rubber tube ensures effective electrostatic discharge (ESD) protection while maintaining the integrity of the PCB during the depaneling process.
