

ESD SMD Cover Extender/Feeder Tape

SKU: G-TFT | Sizes: 8mm (Size 5x396mm) for 8 & 12mm / 500pcs/box, 12mm (Size 6x396mm) / 500pcs/box, 16mm (Size 9x396mm) / 500pcs/box, 24mm (Size 18x396mm) /250pcs/box

Features & Benefits

- ◆ ESD-safe PET material
- ◆ Extends cover tape when leaders are short or absent
- ◆ Reduces tape waste and feeder load time
- ◆ Compatible with reels of any size
- ◆ Ideal for automated SMT production setups

About the ESD SMD Cover Extender/Feeder Tape

The ESD SMD Cover Extender/Feeder Tape is a practical solution for extending cover tape on SMT reels, particularly when tape leaders are short or missing.

These ESD-safe, pre-cut strips minimise material waste and feeder load time, enhancing efficiency in automated production environments. Suitable for reels of any size, the extender tape ensures reliable performance and electrostatic protection. Available in 8mm and 12mm sizes (500 pcs/pack) and 16mm (250 pcs/pack), it offers a simple yet effective way to keep SMT operations running smoothly.
