

ESD SMT Double Splice Tape

SKU: G-TDS | Sizes: 8mm Double / 500 pcs, 12mm Double / 500 pcs, 16mm Double / 500 pcs, 24mm Double / 250 pcs

Features & Benefits

- ◆ ESD-safe PET material
- ◆ Pre-cut with 10 indentations per side for sprocket alignment
- ◆ Suitable for SMT carrier tape splicing
- ◆ Black colour for easy identification
- ◆ Ideal for use in automated SMT assembly lines
- ◆ Each tape features 10 indentations per side, ensuring precise sprocket alignment during automated processes

About the ESD SMT Double Splice Tape

The ESD SMT Double Splice Tape is designed for secure and accurate joining of SMT carrier tapes, using pre-cut ESD-safe PET strips.

Each tape features 10 indentations per side, ensuring precise sprocket alignment during automated processes.

Available in sizes 8mm, 12mm, 16mm (in packs of 500 pieces), and 24mm (in packs of 250 pieces), this black splice tape provides reliable electrostatic protection and smooth tape feeding for surface mount applications.
