- ◆ White Tray: 25x36cm
- ◆ Four Universal Wheel: 2.5"
- ◆ Product Weight: 10KG
- ◆ Packing Weight: 14KG

About the ESD SMT Trolley/Splice Cart

The Removable SMT Trolley is designed for holding splicing tools, clips, and tapes, making SMT operations more efficient. Fitted with rotatable wheels, it can be moved easily across different production lines. Its ESD-safe design prevents static damage, while the adjustable splicing plate, material tray, and waste collection systems ensure convenience and organisation during use.

Compatible with:

- SMT Stapler Splice Tool
