

ESD Senso Dial Anti Fatigue Mat

SKU: G-SBM-B | Sizes: 1M Width x 1.5M Length, 1M Width x 1M Length, 1.2M Width x 1M Length, 1M Width x 10M Length, 1.2M Width x 10M Length

Features & Benefits

- ◆ Tough ESD matting for demanding workplaces
- ◆ Made from SBR/NBR top surface and EPDM foam base
- ◆ Deckplate pattern surface for enhanced grip and slip resistance
- ◆ Ramped edges to reduce trip hazards
- ◆ Soft foam backing for superior fatigue relief
- ◆ Bespoke sizes and shapes available for customised solutions
- ◆ Provides static control in a range of industrial environments
- ◆ Durable ESD mat for long-lasting protection and performance
- ◆ This tough ESD matting is engineered for demanding workplaces, providing excellent safety features and static control in every environment
- ◆ Featuring a durable SBR/NBR top surface with an EPDM foam base, the mat offers both resilience and comfort

About the ESD Senso Dial Anti Fatigue Mat

This tough ESD matting is engineered for demanding workplaces, providing excellent safety features and static control in every environment.

Featuring a durable SBR/NBR top surface with an EPDM foam base, the mat offers both resilience and comfort.

The deckplate pattern surface ensures superior grip in slippery conditions, reducing the risk of slips and falls. With ramped edges, the mat helps prevent trip hazards, making it a safer choice for high-traffic areas. The soft foam backing also offers exceptional fatigue relief for those standing for long periods.

Tested to IEC 61340-4-1 standards, the mat delivers reliable static dissipation with resistance values of R_p-p and $R_g < 1 \times 10^9 \Omega$.

Bespoke sizes and shapes are available, allowing for tailored solutions in a variety of environments. **Please call for details.**
