

ESD TWEEZER SET 7-SA, 2-SA, 3-SA, 2A-SA

SKU: G-HT-SET04-E

Features & Benefits

- ◆ **Set of 4** high-quality, ESD-safe tweezers with black epoxy coating
- ◆ Non-magnetic, stainless steel construction for handling sensitive components
- ◆ Various tip designs (curved, tapered, rounded, flat-edged) for a broad range of applications
- ◆ Epoxy coating for electrostatic discharge protection, making them perfect for use in electronics and microelectronics
- ◆ Durable, rust-resistant, and comfortable for precise handling during extended use

About the ESD TWEEZER SET 7-SA, 2-SA, 3-SA, 2A-SA

The ESD Tweezer Set offers four high-quality, stainless steel tweezers coated with a black epoxy finish for enhanced Electrostatic Discharge (ESD) protection.

These non-magnetic tweezers are designed for precision tasks in environments where static control is critical, such as electronics assembly, microelectronics, and other sensitive applications.

The set includes tweezers with different tip styles, providing a versatile range of tools for various handling needs. With their ergonomic design and durable construction, these tweezers offer comfort, control, and safety for delicate work.
