

ESD TWEEZER SET SS, OO, 2A, 3C, 5, 7

SKU: G-HT-SET06-E

Features & Benefits

- ◆ **6-piece ESD-safe set** of black epoxy-coated, stainless steel, non-magnetic tweezers
- ◆ Ideal for static-sensitive environments, including electronics and microelectronics
- ◆ Includes a variety of tip styles: fine, tapered, curved, and flat-edged for versatility
- ◆ Durable, rust-resistant construction for long-lasting performance
- ◆ Comes in a handy PVC pouch for convenient storage and transport
- ◆ Featuring various tip designs, including fine, tapered, curved, and flat-edged tips, this versatile set is perfect for a wide range of applications, from delicate tasks to more robust gripping

About the ESD TWEEZER SET SS, OO, 2A, 3C, 5, 7

The ESD Tweezer Set SS, OO, 2A, 3C, 5, 7 is a premium 6-piece collection of high-quality, stainless steel, non-magnetic tweezers, specially coated with black epoxy for Electrostatic Discharge (ESD) protection.

These tweezers are ideal for environments where static control is critical, such as electronics, microelectronics, and precision assembly. Featuring various tip designs, including fine, tapered, curved, and flat-edged tips, this versatile set is perfect for a wide range of applications, from delicate tasks to more robust gripping.

The tweezers come in a handy PVC pouch for easy storage and portability.
