

ESD Winter Hats (Black) Unisex

SKU: 702-038-BK

Features & Benefits

- ◆ **Effective ESD Protection:** Surface resistance complies with strict ESD safety standards for sensitive environments.
- ◆ **Comfortable & Breathable:** Soft and breathable fabric ensures comfort during extended wear.
- ◆ **Unisex & Snug Fit:** Designed to fit both men and women comfortably for all-day wear.
- ◆ **Compliance with EPA Standards:** Clearly marked with the EPA symbol for electrostatic discharge safety.
- ◆ **Ideal for Static-Sensitive Areas:** Perfect for cleanrooms, production lines, and other environments requiring ESD safety.
- ◆ **Customisable:** Custom embroidery options available to tailor the product to your company's needs.

About the ESD Winter Hats (Black) Unisex

Ensure optimal protection and comfort with our ESD Unisex Hat, **ONE SIZE FITS ALL.**

Designed for use in Electrostatic Protective Areas (EPA), this winter hat offers essential static dissipative protection, making it ideal for the electronics manufacturing and production industries.

With effective static dissipation and a breathable, comfortable fit, this product complies with strict ESD safety standards, keeping sensitive equipment and components safe from electrostatic discharge.

It's a practical, stylish solution for static-free environments, for all your staff.

Custom Company/Logo Embroidery available, please ask for details

Surface resistance is held within the $10^6 < R_s < 10^8 \Omega$ range, with volumetric (permeability) resistance at $R_v < 10^7 \Omega$, ensuring continuous static dissipation throughout the working day.
