

Earth Bonding Plug 1 X 10mm Stud ESD

SKU: 101-092-2

Features & Benefits

- ◆ **1 x 10mm stud** for secure grounding connection
- ◆ **One meg-ohm resistor** for ESD protection
- ◆ U.K. plug design for compatibility with U.K. electrical systems
- ◆ Ideal for grounding anti-static mats, workstations, and other ESD-sensitive equipment
- ◆ Ensures safe static discharge management in static-sensitive environments
- ◆ Perfect for electronics manufacturing and ESD-critical applications

About the Earth Bonding Plug 1 X 10mm Stud ESD

The **Earth Bonding Plug 1 x 10mm Stud ESD** provides a simple and reliable method for grounding in **static-sensitive environments**. With a **1 x 10mm stud**, this plug allows for secure connections to anti-static mats, workstations, or other ESD-sensitive equipment, ensuring effective static discharge management.

The **U.K. plug** design is fully compatible with U.K. electrical systems, while the built-in **one meg-ohm resistor** offers essential ESD protection, safely dissipating static charge.

This plug is perfect for use in electronics manufacturing, assembly lines, and any environment requiring reliable ESD control.
