

Earth Bonding Plug 3 X 10mm Studs ESD

SKU: 101-092-3

Features & Benefits

- ◆ **3 x 10mm studs** for secure grounding connections
- ◆ **Includes a one meg-ohm resistor** for ESD protection
- ◆ **U.K. plug** design compatible with U.K. electrical systems
- ◆ Perfect for anti-static mats, workstations, and other ESD-sensitive equipment
- ◆ Ideal for electronics manufacturing and static-sensitive environments
- ◆ Provides reliable static discharge control and ESD safety
- ◆ Featuring 3 x 10mm studs, this plug allows for secure connections to multiple anti-static mats or workstations, ensuring effective static discharge management

About the Earth Bonding Plug 3 X 10mm Studs ESD

The Earth Bonding Plug 3 x 10mm Studs ESD is an essential grounding solution for static-sensitive environments.

Featuring 3 x 10mm studs, this plug allows for secure connections to multiple anti-static mats or workstations, ensuring effective static discharge management.

The U.K. plug design ensures compatibility with standard U.K. electrical systems, while the built-in one meg-ohm resistor provides crucial ESD protection, safely dissipating static charge.

Ideal for use in electronics manufacturing, assembly areas, and any application requiring ESD safety, this plug offers a robust and reliable solution for grounding needs.

Specifications

Property	Detail
Application	ESD-protected areas, electronics mfg, cleanrooms
