

Earth Bonding Plug 3 x 10mm Studs ESD European

SKU: 101-092-4

Features & Benefits

- ◆ Earth Bonding Plug 3 x 10mm for easy grounding and static discharge control
- ◆ **3 x 10mm studs** for multiple secure connections
- ◆ **European plug** design for compatibility with European electrical systems
- ◆ **Includes a one meg-ohm resistor** for ESD protection
- ◆ Perfect for grounding anti-static mats, workstations, and ESD-sensitive equipment
- ◆ Ideal for use in electronics manufacturing and other static-sensitive environments

About the Earth Bonding Plug 3 x 10mm Studs ESD European

The Earth Bonding Plug 3 x 10mm provides a simple and efficient grounding solution for static-sensitive environments. Equipped with 3 x 10mm studs, this plug allows for secure connections to anti-static mats, workstations, and other ESD-sensitive equipment.

The European plug design ensures compatibility with European electrical systems, while the built-in one meg-ohm resistor offers essential ESD protection, safely managing static discharge.

This plug is ideal for use in industries such as electronics manufacturing, assembly areas, and any application requiring reliable static control.
