

Earth Bonding Plug 3 x 7mm Studs ESD European

SKU: 101-092-11

Features & Benefits

- ◆ Earth Bonding Plug 3 x 7mm for easy grounding
- ◆ **3 x 7mm studs** for secure connection to grounding points
- ◆ **European plug** design for compatibility with European electrical systems
- ◆ **Includes a built-in one meg-ohm resistor** for ESD protection
- ◆ Ideal for static-sensitive environments and electronics manufacturing
- ◆ Provides reliable static discharge management and safe grounding

About the Earth Bonding Plug 3 x 7mm Studs ESD European

The Earth Bonding Plug 3 x 7mm provides a simple and effective method for grounding in static-sensitive environments.

Designed with 3 x 7mm studs, this plug allows for easy connection to grounding points or anti-static mats.

The European plug design ensures compatibility with European electrical systems, while the built-in one meg-ohm resistor provides essential ESD protection, helping to safely dissipate static charge.

Perfect for use in electronics manufacturing, workstations, or any application requiring reliable static discharge management, this plug offers both functionality and safety.
