

Earth Bonding Point 3 X 10mm Studs ESD

SKU: 101-090-1

Features & Benefits

- ◆ **3 x 10mm studs** for secure and versatile grounding connections
- ◆ **Each connection has a 1 meg-ohm safety resistor, with 3 resistors** per bonding point for enhanced ESD protection
- ◆ 2-metre standard leads with eyelet terminations for easy installation
- ◆ Designed to fit easily under the workbench for convenient grounding
- ◆ Provides effective static discharge control in static-sensitive environments
- ◆ Ideal for use with anti-static mats, workstations, and ESD-sensitive equipment
- ◆ Perfect for electronics manufacturing, assembly areas, and other ESD-critical applications

About the Earth Bonding Point 3 X 10mm Studs ESD

The Earth Bonding Point 3 x 10mm Studs ESD offers a simple and effective solution for grounding in static-sensitive environments.

Designed to fit securely under the workbench, this ESD grounding point features 3 x 10mm studs, providing multiple connection options for anti-static mats, workstations, or other ESD-sensitive equipment.

Each connection includes a 1 meg-ohm safety resistor (with 3 resistors per bonding point), ensuring reliable ESD protection and static discharge control. The bonding point comes with 2-metre standard leads with eyelet terminations, making it easy to connect to an earth bonding point or grounding system.

Ideal for use in electronics manufacturing, assembly lines, and other environments requiring precise static control, this product ensures safe and effective grounding for your equipment.
