

Earth Bonding Point 3 X Banana Sockets ESD

SKU: 101-090-3

Features & Benefits

- ◆ **3 x banana sockets** for versatile and secure grounding connections
- ◆ **Each connection includes a 1 meg-ohm safety resistor, with 3 resistors** per bonding point for ESD protection
- ◆ 2-metre standard leads with eyelet terminations for easy installation
- ◆ Designed to be mounted under the workbench for a convenient grounding point
- ◆ Provides reliable static discharge control in static-sensitive environments
- ◆ Perfect for use with anti-static mats, workstations, and ESD-sensitive equipment
- ◆ Ideal for electronics manufacturing, assembly lines, and other ESD-critical applications

About the Earth Bonding Point 3 X Banana Sockets ESD

The Earth Bonding Point 3 x Banana Sockets ESD provides a practical and effective solution for ESD grounding in static-sensitive environments.

Designed to fit conveniently under the workbench, this earth bonding point offers 3 x banana sockets for flexible grounding connections to anti-static mats, workstations, and other ESD-sensitive equipment.

Each socket is equipped with a 1 meg-ohm safety resistor (3 resistors per bonding point) to ensure reliable ESD protection and static discharge control. The unit is supplied with 2-metre standard leads featuring eyelet terminations, making installation quick and easy. Ideal for electronics manufacturing, assembly areas, and other ESD-critical applications, this bonding point ensures stable and secure grounding for all connected equipment.
