

## Economy Range - Large Toothbrush ESD

SKU: G-BR-4

### Features & Benefits

- ◆ Designed for ESD-sensitive assemblies, ensuring safe cleaning without generating harmful static charges
- ◆ Ideal for cleaning electronic components and assemblies without causing electrostatic discharge (ESD) damage
- ◆ Cost-effective and reliable solution for maintaining ESD safety in ESD-controlled environments

### About the Economy Range - Large Toothbrush ESD

The Economy Range - Large Toothbrush ESD is an essential tool for the safe cleaning of ESD-sensitive assemblies, designed to prevent the generation of harmful static charges.

This high-performance brush is ideal for cleaning electronic components and assemblies without causing electrostatic discharge (ESD) damage.

With its durable bristles and ergonomic design, the large toothbrush is perfect for covering larger surface areas while maintaining ESD safety. It provides effective cleaning and protection for sensitive electronics in environments where ESD control is paramount. The brush length of 225mm and bristle dimensions of 21mm x 18mm x 90mm ensure that this tool is both practical and versatile, offering precision for cleaning larger components in ESD-controlled environments.

### Specifications

Property	Detail
Brush length	225mm
Bristle dimensions	21mm
Application	ESD-protected areas, electronics mfg, cleanrooms
