

Economy Range - Medium Toothbrush ESD

SKU: G-BR-3

Features & Benefits

- ◆ Designed for safe cleaning of ESD-sensitive assemblies without generating static charges
- ◆ Ideal for use in electronics, telecommunications, and other static-sensitive industries
- ◆ Prevents electrostatic discharge (ESD), protecting sensitive components
- ◆ Part of the Economy Range, offering excellent value for static control cleaning needs
- ◆ This specialised toothbrush features medium bristles that are gentle yet effective for cleaning delicate components and surfaces, making it a must-have tool for industries such as electronics, telecommunications, and other static-controlled areas

About the Economy Range - Medium Toothbrush ESD

Economy Range – Medium Toothbrush ESD – Safe Cleaning for Static-Sensitive Assemblies

The Economy Range – Medium Toothbrush ESD is designed for cleaning in ESD-sensitive environments, offering a safe way to maintain electronic assemblies without generating harmful static charges. This specialised toothbrush features medium bristles that are gentle yet effective for cleaning delicate components and surfaces, making it a must-have tool for industries such as electronics, telecommunications, and other static-controlled areas.

The toothbrush is designed to prevent the build-up of electrostatic discharge (ESD), ensuring that your ESD-sensitive components are protected during cleaning. With a handle length of 165mm, bristle length of 18mm, and brush length of 58mm, this medium toothbrush is the perfect size for precision cleaning in tight spaces.

Specifications

Property	Detail
Handle Length	165mm
Application	ESD-protected areas, electronics mfg, cleanrooms
