

Economy Range - Nail Brush 120mm Large ESD

SKU: G-BR-1L

Features & Benefits

- ◆ Designed for ESD-sensitive assemblies, preventing harmful static charges during cleaning
- ◆ Polypropylene handle for durability and a comfortable grip
- ◆ Ideal for cleaning ESD-sensitive components without causing electrostatic discharge (ESD) damage
- ◆ Ideal for use in ESD-controlled environments to maintain ESD safety
- ◆ Featuring durable bristles and a polypropylene handle, the brush is ideal for cleaning sensitive parts in ESD-controlled environments

About the Economy Range - Nail Brush 120mm Large ESD

The Economy Range - Nail Brush 120mm Large ESD is designed for the safe and effective cleaning of ESD-sensitive assemblies without generating harmful static charges.

This brush ensures ESD protection while maintaining the integrity of delicate electronic components.

Featuring durable bristles and a polypropylene handle, the brush is ideal for cleaning sensitive parts in ESD-controlled environments. With a brush length of 120mm and bristle dimensions of 21mm width x 45mm height x 90mm length, it provides precision and versatility for cleaning large surfaces or intricate components.

This tool is essential for preventing electrostatic discharge (ESD) damage, offering a reliable solution for professionals working with electronics and ESD-sensitive components.

Specifications

Property	Detail
Brush length	120mm
Bristle dimensions	21mm
Application	ESD-protected areas, electronics mfg, cleanrooms
