

## Economy Range - Nail Brush 95mm Small ESD

SKU: G-BR-1S

### Features & Benefits

- ◆ Designed for ESD-sensitive assemblies, preventing the generation of harmful static charges
- ◆ Ideal for cleaning delicate components without causing electrostatic discharge (ESD) damage
- ◆ Provides a cost-effective solution for ESD safety in professional environments
- ◆ Featuring durable bristles with a thoughtful design, it allows for effective cleaning while maintaining the integrity of the components

### About the Economy Range - Nail Brush 95mm Small ESD

The Economy Range - Nail Brush 95mm Small ESD is specifically designed for the safe cleaning of ESD-sensitive assemblies, ensuring that no harmful static charges are generated during use.

This affordable yet reliable brush offers an essential solution for cleaning delicate electronic components and preventing electrostatic discharge (ESD) that could damage sensitive equipment.

Featuring durable bristles with a thoughtful design, it allows for effective cleaning while maintaining the integrity of the components. The compact 95mm brush length and the carefully selected bristle dimensions provide versatility and precision in various ESD-sensitive environments.

### Specifications

Property	Detail
Brush length	95mm
Bristle dimensions	21mm
Application	ESD-protected areas, electronics mfg, cleanrooms
