

# Ergonomic Adjustable Footrest ESD

SKU: 109-117

## Features & Benefits

- ◆ Ergonomic ESD Adjustable Footrest for added comfort in ESD protected environments
- ◆ Full ESD protection to ensure safe handling of sensitive electronics
- ◆ 450 x 350mm top pad size for ample foot support
- ◆ Robust steel construction for long-lasting durability
- ◆ Non-slip top pad surface for secure footing
- ◆ Height adjustable from 125mm to 330mm for personalised comfort
- ◆ Angle adjustable foot pad from flat to 25° for ergonomic positioning
- ◆ Adjustable feet for levelling on uneven surfaces
- ◆ Lightweight and easy to move, perfect for any workstation

## About the Ergonomic Adjustable Footrest ESD

**The Ergonomic Adjustable Footrest ESD is the perfect addition to any workspace, especially in ESD protected environments, offering comfort and full ESD protection for users.**

Its simple yet effective design ensures ease of use and provides ergonomic support during long hours of standing or sitting.

The footrest features a robust steel construction and a non-slip top pad surface, ensuring stability and durability.

The height is adjustable from 125mm to 330mm, allowing for personalised comfort, while the angle of the foot pad can be adjusted from flat to 25° for optimal foot positioning. With adjustable feet to accommodate uneven surfaces, this footrest guarantees stability in any workspace.

Ideal for ESD-sensitive environments, it combines functionality with full ESD protection to safeguard sensitive equipment and ensure a safe working environment.
