

Flush Cutter Small Head with Safety Clip

SKU: GT-TR20M-A

Features & Benefits

- ◆ **Reduced Head Dimension:** Allows access to difficult-to-reach areas and delicate applications.
- ◆ **Compact Size:** Ideal for precision work in confined spaces.
- ◆ **Light, Ergonomic Design:** Ensures comfort and control for extended use.
- ◆ **Steel Thickness (2.0mm):** Provides strength and durability for long-lasting performance.
- ◆ **Tool Length (132mm):** Compact design for precision and ease of handling.
- ◆ **Safety Clip:** Available to securely hold wire scraps after cutting, maintaining a clean workspace.
- ◆ **Safety Clip Type (AF):** Compatible for securely holding wire scraps.
- ◆ **Grip Model (S):** Offers a comfortable and secure grip during use.
- ◆ **Copper Wire Cutting Capacity (Ø0.81mm, 20 AWG):** Suitable for cutting small copper wire.
- ◆ **Cutting Force (3kg):** Delivers the required cutting force for efficient and precise cuts.
- ◆ **Micro Head:** Provides precision for intricate cutting tasks.

About the Flush Cutter Small Head with Safety Clip

The Flush Cutter Small Head with Safety Clip is a compact and precise tool designed for intricate and delicate electronic applications.

Its reduced head dimensions and pointed shape enable easy access to tight spaces, providing clean, flush cuts.

The ergonomic design ensures comfort during use, while the safety clip (AF type) securely holds wire scraps after cutting, maintaining a clean workspace.

With a steel thickness of 2.0mm and a tool length of 132mm, it is perfect for cutting copper wire up to Ø0.81mm (20 AWG) with a cutting force of 3kg.
