

# Flush Front End ESD Cutter

SKU: G-HT-C20

## Features & Benefits

- ◆ **ESD Safe:** Protects sensitive electronic components from electrostatic discharge.
- ◆ **Flush Front End Cutter:** Ensures clean, flush cuts for a smooth, professional finish.
- ◆ **Laser Cut Design:** Provides high precision and long-lasting durability.
- ◆ **Cutting Edge Hardness (62 HRC):** Offers sharpness and durability for consistent cutting performance.
- ◆ **C70 Hardened Steel:** High-quality steel for strength, reliability, and performance.
- ◆ **Bi-Component Handles:** Ergonomically designed with supersoft grips for maximum comfort and reduced hand fatigue during use.

## About the Flush Front End ESD Cutter

The Flush Front End ESD Cutter is a precision tool designed for ESD-sensitive environments, offering accurate and clean cuts for copper wire.

With a flush front end design and a 1.5mm cutting capacity, this cutter ensures a smooth and precise finish for your electronic assembly or repair tasks.

ESD safe, it protects sensitive components from electrostatic discharge, while the supersoft bi-component handle grips provide comfort and control during extended use.

Built with durable C70 hardened steel, this cutter is an essential tool for professionals requiring high performance and reliability.

## Specifications

Property	Detail
Cutting Capacity	1.5mm
Tool Length	115mm
Application	ESD-protected areas, electronics mfg, cleanrooms
