

Flush Long 55° Angled ESD Head Cutter

SKU: G-HT-C28

Features & Benefits

- ◆ **ESD Safe:** Prevents electrostatic discharge from damaging sensitive electronic components.
- ◆ **55° Angled Head:** Provides optimal access and precision in tight or hard-to-reach areas.
- ◆ **Flush Cutter:** Ensures clean, flush cuts for a smooth, professional finish.
- ◆ **Laser Cut Design:** Guarantees accuracy and durability for long-lasting performance.
- ◆ **Cutting Edge Hardness (62 HRC):** Offers sharpness and durability for consistent cutting results.
- ◆ **C70 Hardened Steel:** High-quality steel that ensures strength, reliability, and long-term performance.
- ◆ **Bi-Component Handles:** Ergonomically designed with supersoft grips for comfort and reduced hand fatigue.
- ◆ Featuring a 55° angled head and supersoft bi-component handle grips, this cutter provides enhanced control and comfort for intricate cutting tasks

About the Flush Long 55° Angled ESD Head Cutter

The Flush Long 55° Angled ESD Head Cutter is a precision tool designed for ESD-sensitive environments.

Featuring a 55° angled head and supersoft bi-component handle grips, this cutter provides enhanced control and comfort for intricate cutting tasks.

With a 0.8mm cutting capacity for copper wire, it delivers clean, flush cuts with exceptional precision. ESD safe, it protects sensitive components from electrostatic discharge, making it the ideal tool for electronics assembly and repair where accuracy and reliability are crucial.

Specifications

Property	Detail
Cutting Capacity	0.8mm
Tool Length	115mm
Application	ESD-protected areas, electronics mfg, cleanrooms
