

Footwear Test Plate ESD

SKU: 106-102

Features & Benefits

- ◆ Durable Footplate Test Plate for precise testing
- ◆ Works seamlessly with the Wall Mounted Bracket
- ◆ Ideal for industrial testing applications
- ◆ Reliable performance under heavy usage
- ◆ Easy installation and compatibility with the Wall Mounted Bracket
- ◆ Provides a stable foundation for accurate results

About the Footwear Test Plate ESD

The Footplate Test Plate is a high-quality accessory designed to be used in conjunction with the Wall Mounted Bracket for secure and accurate testing applications.

This durable test plate ensures a stable foundation for testing, providing precise measurements and reliable results.

Ideal for both professional and industrial settings, the Footplate Test Plate is built to withstand heavy use while maintaining performance.

Its **compatibility with the Wall Mounted Bracket** allows for easy installation and convenient testing in various environments.

Whether for electrical, mechanical, or structural testing, this combination offers enhanced functionality and efficiency.
