- ◆ Available with the ProTECT service plan for continued maintenance
- ◆ Call now to arrange your annual LEV testing on all BOFA parts

About the FumeCAB 600 Cabinet

The BOFA FumeCAB 600 Cabinet offers a spacious working area and enhanced airflow, making it perfect for a variety of applications that require effective fume extraction.

With a robust construction, it is designed to handle higher airflow for efficient fume removal.

The cabinet is equipped with two 1.5-meter lengths of 75mm flexible hose and an LED light strip to ensure clear visibility during use. Additionally, the FumeCAB 600 complies with BOFA's SureCHECK quality standard and is available with the ProTECT service plan for ongoing reliability.

Ideal for industrial environments, this cabinet provides a reliable solution for safe and efficient fume extraction.
