About the G-Tek Box-Joint Pliers / Round

The **G-Tek Box-Joint Pliers / Round** are professional-grade tools designed for precision work. Featuring smooth round nose jaws, they are ideal for bending, shaping, and looping wire in tight spaces. The pliers come equipped with a convenient spring for effortless operation and improved control. With a compact 115mm length, these pliers offer excellent manoeuvrability, making them perfect for delicate tasks. Built for durability and reliability, they are ideal for use in electronics, jewellery making, and other fine applications.
