

GQ-10C-3.2D-01

SKU: GQ-10C-3.2D-01

Features & Benefits

- ◆ 3.2mm chisel tip for accurate and efficient soldering
- ◆ Compatible with QUICK TS10 Soldering Station
- ◆ Designed for use with the TSS10A Soldering Iron
- ◆ Part of the 10C series – perfect for routine soldering tasks
- ◆ Suitable for PCBs and small-to-medium components
- ◆ Ensures steady heat delivery and clean results
- ◆ Part of the 10C series for regular soldering applications, this tip features a 3.2mm chisel shape that offers precise control and efficient heat transfer—ideal for general electronics work, circuit boards, and small-to-medium solder joints

About the GQ-10C-3.2D-01

The QUICK 3.2mm Chisel 10C-3.2D-01 soldering tip is a reliable choice for everyday soldering, designed specifically for use with the Quick TS10 Soldering Station and the TSS10A Soldering Iron.

Part of the 10C series for regular soldering applications, this tip features a 3.2mm chisel shape that offers precise control and efficient heat transfer—ideal for general electronics work, circuit boards, and small-to-medium solder joints.

**** Tips are supplied individually. ****
