

## GQ-10C-B-02

SKU: GQ-10C-B-02

### Features & Benefits

- ◆ Designed for Quick TS10 Soldering Station and TSS10A Soldering Iron
- ◆ 0.5mm bent conical tip for fine, precision soldering
- ◆ Perfect for reaching confined or awkward areas
- ◆ Part of the 10C series – suitable for regular soldering applications
- ◆ Excellent heat transfer for consistent performance
- ◆ Ideal for microelectronics, SMD work, and repair tasks

### About the GQ-10C-B-02

The **QUICK 0.5mm Bent Conical 10C-B-02 Soldering Tip** is engineered for ultra-fine soldering tasks where precision is key. Designed for use with the Quick TS10 Soldering Station and the TSS10A Soldering Iron, this bent conical tip offers excellent access to tight spaces and delicate components. As part of the 10C series, it delivers consistent heat performance and control, making it ideal for detailed electronic repair and micro-soldering work.

**\*\* Tips are supplied individually. \*\***
