

Heating Element 862 for 862DA+

SKU: GQ-862DA-EL

Features & Benefits

- ◆ **Compatible with Quick 862DA+ Hot Air Rework Station:** Seamlessly integrates with the 862DA+ for enhanced performance and reliability.
- ◆ **Works with Quick 862 Hot Air Handle:** Ensures consistent heating and rapid thermal recovery when paired with the 862 Hot Air Handle.
- ◆ **Precision Heat Control:** Delivers stable and uniform heat distribution, making it ideal for precise rework and soldering tasks.
- ◆ **Durable and Efficient:** Built for longevity and efficiency, this heating element offers reliable, long-term use in demanding professional environments.
- ◆ **Easy Replacement:** Designed for quick and hassle-free installation, ensuring minimal downtime.

About the Heating Element 862 for 862DA+

The Quick 862 Heating Element is designed specifically for use with the Quick 862DA+ Hot Air Rework Station and the Quick 862 Hot Air Handle.

This high-performance heating element ensures consistent and precise heat delivery for soldering, desoldering, and rework tasks, making it an essential part of your hot air rework system.

Whether you're working with SMD components or need to manage heat-sensitive electronic parts, the 862 Heating Element provides reliable thermal control to meet the demands of professional soldering.
