

# Heating Element H1205A for TS2300D

SKU: GQ-TS2300D-EL

## Features & Benefits

- ◆ **Compatible with Quick TS2300D Soldering Station:** Works seamlessly with the TS2300D, ensuring consistent heating and soldering performance.
- ◆ **Designed for TSS31B Soldering Pencil:** Optimised for use with the TSS31B Soldering Pencil, offering effective heat delivery for precision soldering.
- ◆ **Rapid Heat-Up and Recovery:** Provides fast thermal recovery, helping you maintain consistent performance during extended soldering sessions.
- ◆ **Precise Temperature Control:** Helps maintain optimal temperatures for precise and controlled soldering, reducing the risk of overheating or damaging components.
- ◆ **Durable and Reliable:** Built for longevity and dependable performance, even in high-demand environments.

## About the Heating Element H1205A for TS2300D

The Quick H1205A Heating Element is specifically designed for use with the Quick TS2300D Soldering Station and the TSS31B Soldering Pencil, offering reliable, high-performance heating for precision soldering tasks.

This heating element ensures rapid thermal recovery and stable temperature control, providing consistent results for both delicate and general soldering applications. Whether you're working with small, intricate components or handling more robust soldering tasks, the H1205A Heating Element guarantees smooth, efficient heat transfer.

## Specifications

Property	Detail
Application	ESD-protected areas, electronics mfg, cleanrooms
